I would like to discuss about ^{summer} our school holidays. I really like to spend ^d my summer school holidays. There are many interesting situations when summer school holidays start.

First of all, summer school holidays ^{are} very long, and I have a lot on my plate when summer school holidays start. I need to read many books, and I need to practise my school work. Also, I need to help my parents with house hold chores. Sometimes I must wash ~~the~~ the dishes, suck the floor, wash the floor. But (usually) I must just water the flowers.

Second, I have (a lot of time) to spend ~~quality time~~ with my parents or my friends. I always play football with my friends and walk with my parents, because it is very interesting.

I believe summer school holidays are so long, and there are three months ^h of summer school holidays. I guess that most of the students want longer school holidays because they want more relaxation, more fun, and also many students hate school.

In conclusion, I want to tell you that summer school holidays are very important days in life of a student. Students can recharge ~~to~~ their batteries, travel with parents and get ready for new school year.
